

# **Ensemble Skill Development— Bands 1 to 3 Years Experience**

**CLINICIAN:**

**Tom Bennett, TBA Featured Clinician**

**DEMONSTRATION GROUP FROM NEISD:**

**Reagan HS, Levi Chavis-Director & Johnson HS, Jarrett Lipman-Director**

**SPONSORS:**

**The Foundation for Music Education & Music Across Texas**

## **Texas Bandmasters Association 2010 Convention/Clinic**

**JULY 25-28, 2010**

**HENRY B. GONZALEZ CONVENTION CENTER  
SAN ANTONIO, TEXAS**

## **DON'T JUST WARM-UP!**

### **USE THIS TIME FOR ENSEMBLE SKILL DEVELOPMENT AS WELL**

### **IT'S NOT JUST CONCERT F ANYMORE!**

Session 2 – Conceptual ensemble skill development for groups with one to four years experience working on ensemble fundamentals (***This can be habit forming, you might want to stop now***)

A few personal opinions based on many years of observation (most of them lately), and lots of mistakes (mine). Think about the following non-playing concepts to teach. These are directly related to a student's individual and ensemble performance success. Emphasize these concepts not as student choices but as learned skills.

#### 1) Listening skills

- a) How frequently does someone play the wrong exercise after instructions?
- b) Try to limit bits of instruction to no more than two pieces of information.
- c) Ask students to repeat back to you at least the concept of your instructions if not verbatim.
- d) Try **not** to say pay attention.
- e) Try to develop some method of rewarding good listening skills.

#### 2) Eye contact as a skill

- a) Ask students to look up at you or a central point after a fundamental is learned well.
- b) Practice looking up in music.
  - 1) Look up until uncomfortable.
  - 2) Look up in a set amount of measures.
- c) Be aware when not looking at instructor/conductor might be a cultural issue.

#### 3) Mental focus as a skill

- a) Occasionally do an exercise/musical excerpt where the students stop when his/her mind wanders.
- b) Help students be aware when they don't know what they are doing – **STOP PLAYING AT THAT POINT.**

### **Tools --- Procedures --- Goals – Outcomes**

#### 1) Tools – Breathing / Posture / Hand Position / Body Texture / Articulation / Vowel sound / Be still

- a) These items are all essential for highest quality, efficient tone production.
- b) Exaggerate these items.

#### 2) Procedure – Students should exhibit exact knowledge of the structure and execution of each exercise.

#### 3) Goals – What are we trying to accomplish as individuals and as an ensemble?

#### 4) Outcomes -- Was our goal(s) achieved? Input is important. from both director and students.

### **TWO 15/20-MINUTE EXAMPLES OF BEGINNING ENSEMBLE TECHNIQUE EXERCISES**

A 45 to 55 minute period is assumed. There should be a major emphasis on several things at this point:

#### 1) Clear understanding of procedure (can't really do anything else without this)

#### 2) Listening skills – Eye contact – Mental focus (can't do 2 or 3 without listening skills & focus)

#### 3) Use of tools

4) Unified concept of goals/outcomes

Example 1 – Advanced seventh grade into ninth grade depending on ability level

- 1) Breathing – standing and sitting
  - a) Through the nose for relaxation – through the mouth for practical application
  - b) More emphasis on quicker breathing for fast tempos – vary speed and counts for inhale
  - c) Begin talking about a breathing plan if you have not already done so
- 2) Singing
  - a) Concert F – scale pattern
  - b) Interval of a 5<sup>th</sup> and perhaps major triad – split for 5ths
  - c) Be creative
- 3) Concert F
  - a) Models – one on an instrument / section / individual addition
  - b) Try not to be noisier as you add
  - c) Four counts on with model then everyone for four counts
- 4) Lip vibrations on Remington exercise - they must practice these at home or don't work on this
  - a) Whole notes back and fourth between brass and woodwind / down a fifth and up a fifth
  - b) Brass hum while ww's play
  - c) Play exercise together on instruments
- 5) F descending/ascending exercise
  - a) As in pervious examples but extending more into upper register, i.e. – clarinets to D or E; horns to High G; oboes to C etc.
  - b) Do two-note drill each way, then in half notes without rest
  - c) Do bottom octave down and up in half notes without stopping
- 6) Simple chorale
  - a) Subdivide
  - b) Sing
  - c) Individual lines

Example 2 – Same level (give or take) as example 1 – just a variation of exercises

- 1) Breathing – just sitting
  - a) Essentially as example 1 – leave out breathing through the nose
  - b) Add articulation
- 2) Concert F four counts on and off – models for balance
  - a) Add four touching notes or other articulations
  - b) Notes other than F
- 3) Remington
  - a) Half-Half-Whole-Whole rest then continue
  - b) Down & up to 5<sup>th</sup> or more
  - c) Do models
  - d) Add articulation
  - e) Sing
- 4) Volume exercise
  - a) Concert F for 16 counts – crescendo from PP to FF in 8 counts then back to PP
  - b) Do same exercise on different notes or several notes of mid-register scale
- 5) Articulation series
  - a) Whole note through 16ths, touching and lifted with whole rest in between
  - b) Exercise without rests
  - c) Play on a different note
  - d) Do with crescendo and diminuendo
- 6) Interval exercises
  - a) Pass through intervals in key of F
  - b) Divided interval exercise with or without exchange

## MUSICAL EXAMPLES – SESSION 2

### EXAMPLE 2

#### Exercise #3 - More advanced Remington (vary articulation)

Musical notation for Exercise #3 in 4/4 time. The staff contains a sequence of notes: C4 (quarter), D4 (quarter), E4 (quarter), F4 (quarter), G4 (quarter), A4 (quarter), B4 (quarter), C5 (quarter), B4 (quarter), A4 (quarter), G4 (quarter), F4 (quarter), E4 (quarter), D4 (quarter), C4 (quarter). The notes are grouped into pairs with slurs. The first pair (C4, D4) is marked with a fermata. The second pair (E4, F4) is marked with a fermata. The third pair (G4, A4) is marked with a fermata. The fourth pair (B4, C5) is marked with a fermata. The fifth pair (B4, A4) is marked with a fermata. The sixth pair (G4, F4) is marked with a fermata. The seventh pair (E4, D4) is marked with a fermata. The eighth pair (C4, C4) is marked with a fermata. The exercise concludes with the instruction "continue to B flat".

Musical notation for the continuation of Exercise #3. The staff contains a sequence of notes: C4 (quarter), D4 (quarter), E4 (quarter), F4 (quarter), G4 (quarter), A4 (quarter), B4 (quarter), C5 (quarter), B4 (quarter), A4 (quarter), G4 (quarter), F4 (quarter), E4 (quarter), D4 (quarter), C4 (quarter). The notes are grouped into pairs with slurs. The first pair (C4, D4) is marked with a fermata. The second pair (E4, F4) is marked with a fermata. The third pair (G4, A4) is marked with a fermata. The fourth pair (B4, C5) is marked with a fermata. The fifth pair (B4, A4) is marked with a fermata. The sixth pair (G4, F4) is marked with a fermata. The seventh pair (E4, D4) is marked with a fermata. The eighth pair (C4, C4) is marked with a fermata. The exercise concludes with the instruction "continue to C".

#### Exercise #4a - Volume control exercise

Musical notation for Exercise #4a in 4/4 time. The staff contains a sequence of notes: C4 (half), D4 (half), E4 (half), F4 (half), G4 (half), A4 (half), B4 (half), C5 (half), B4 (half), A4 (half), G4 (half), F4 (half), E4 (half), D4 (half), C4 (half). The notes are grouped into pairs with slurs. The first pair (C4, D4) is marked with a fermata. The second pair (E4, F4) is marked with a fermata. The third pair (G4, A4) is marked with a fermata. The fourth pair (B4, C5) is marked with a fermata. The fifth pair (B4, A4) is marked with a fermata. The sixth pair (G4, F4) is marked with a fermata. The seventh pair (E4, D4) is marked with a fermata. The eighth pair (C4, C4) is marked with a fermata. The exercise is marked with dynamics: *pp* at the beginning, *ff* in the middle, and *pp* at the end.

#### Exercise #6a - Interval pass-through (Key of F)

Musical notation for Exercise #6a in 4/4 time. The staff contains a sequence of notes: C4 (half), D4 (half), E4 (half), F4 (half), G4 (half), A4 (half), B4 (half), C5 (half), B4 (half), A4 (half), G4 (half), F4 (half), E4 (half), D4 (half), C4 (half). The notes are grouped into pairs with slurs. The first pair (C4, D4) is marked with a fermata. The second pair (E4, F4) is marked with a fermata. The third pair (G4, A4) is marked with a fermata. The fourth pair (B4, C5) is marked with a fermata. The fifth pair (B4, A4) is marked with a fermata. The sixth pair (G4, F4) is marked with a fermata. The seventh pair (E4, D4) is marked with a fermata. The eighth pair (C4, C4) is marked with a fermata. The exercise is marked with dynamics: *pp* at the beginning, *ff* in the middle, and *pp* at the end.

Group 1 - sustain whole note  
Group 2 - play moving line

#### Exercise #6b - Divided interval exercise

Musical notation for Exercise #6b in 4/4 time. The staff contains a sequence of notes: C4 (half), D4 (half), E4 (half), F4 (half), G4 (half), A4 (half), B4 (half), C5 (half), B4 (half), A4 (half), G4 (half), F4 (half), E4 (half), D4 (half), C4 (half). The notes are grouped into pairs with slurs. The first pair (C4, D4) is marked with a fermata. The second pair (E4, F4) is marked with a fermata. The third pair (G4, A4) is marked with a fermata. The fourth pair (B4, C5) is marked with a fermata. The fifth pair (B4, A4) is marked with a fermata. The sixth pair (G4, F4) is marked with a fermata. The seventh pair (E4, D4) is marked with a fermata. The eighth pair (C4, C4) is marked with a fermata. The exercise is marked with dynamics: *pp* at the beginning, *ff* in the middle, and *pp* at the end.

Group 1 - sustain whole note  
Group 2 - play moving line

continue to C
